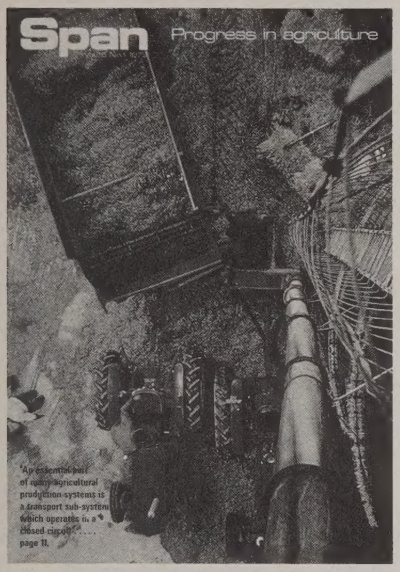
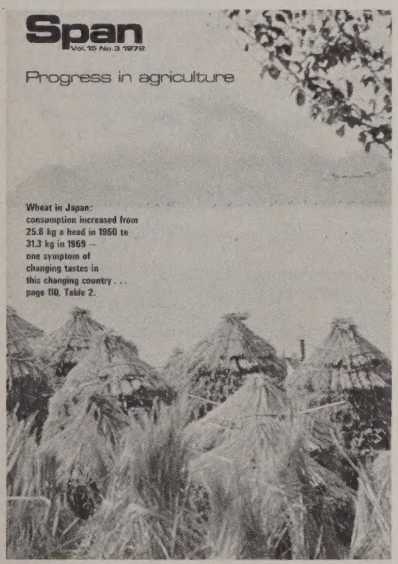
Span Index 1972

Volume 15. Nos. 1,2,3.



Span
Progress in agriculture
"An essential part of many agricultural production systems is a transport sub-system which operates in a closed circuit" . . . page 11.



Span
Vol. 15 No. 3 1972
Progress in agriculture
Wheat in Japan: consumption increased from 25.8 kg a head in 1960 to 31.3 kg in 1969 — one symptom of changing tastes in this changing country . . . page 110, Table 2.

Subject

Abscisic acid, hormone-inhibiting, . . 86

Acacia drepanolobium, . . 24,25

Acaricide-resistant mite, . . 20

Acrida (quarterly journal), . . 143

African countries,
cocoa production, . . 74

Afroccidens spp., . . 75

Agricultural credit, France, . . 37

Agricultural development,
and the environment, . . 15

Agricultural Development
and Advisory Service,
Stoneleigh team, . . 132

Agricultural engineer,
key role of, . . 138

Agricultural machinery, . . 138
industry, France, . . 36
Royal Show awards, . . 105

Agricultural policy, Japan, . . 110
North America, . . 32

Agricultural products,
movement to markets,
model study, . . 9

Agricultural research,
control and management of, . . 5

Agricultural Research Council,
U.K., and Rothschild Report, . . 5

Agricultural transport systems,
computer programmes for, . . 11

Agropyron repens, . . 118

Agrostis gigantea, . . 118

Aldicarb, . . 116

Aleatico grape, . . 94

Alternate cropping, economics of, . . 66

Amblyseius fallacis, . . 19 (fig.),20,21

Amblyseius hibisci, . . 21

Amino-acids in plants, use as
risk-rating indicator, . . 73

Aminotriazole, . . 118

*Analytical Methods in Government
Science Policy* (OECD), . . 138

Angora goat, cross with
wild species, . . 3

Animal breeding, of Drysdale sheep, . . 2
of goats, . . 3
of nucleus stocks, New Zealand, . . 4
ova transplant technique, . . 4

Animal diseases,
economic losses from, . . 3
intensive management and, . . 107

Animal husbandry, economics of disease
control, . . 3

in Hungary, . . 139
waste management, U.S.A., . . 141

Animal nutrition, imbalance between nutrient input and output, . . 107

Aphids, resistance of plants to, . . 72

Apple, consumption, Western Europe, . . 57
economic outlook for, . . 53
retail market requirements for, . . 55,57
packing station line, . . 56 (fig.)
virus diseases and control, . . 58

Apple harvester, . . 62 (fig.)

Apple mosaic virus, . . 58,59

Apple orchard, frost protection and yield, . . 64

Arable cropping, soil structure and intensive, . . 34

Argentina, dessert apple production, . . 55

Arthropod pests, control by pesticide-resistant predators, . . 19 (figs.)

Artificial insemination of livestock, Hungary, . . 140

Atrazine, . . 68,69

Australia, crop disease losses, . . 1
dessert apple production, . . 55
pear production, . . 55
wild oat problem, . . 27
wool industry, . . 106

Autoradiography, photographic processes in, . . 122

Auxins, . . 85
in root formation, . . 81
synthetic analogues, . . 85

Avena spp., . . 118
control by Suffix, . . 26

Avena barbata, . . 27

Avena fatua, . . 27

Avena ludoviciana, . . 27

Avena sterilis, . . 27

Avicides, in quelea control, . . 135

Azinphos-methyl, predators resistant to, . . 19

Azodrin, . . 7

b

B-nine, . . 85

Bacillus thuringiensis, . . 112

Bajra, high-yielding variety, . . 41

Baling machines, production, France, . . 37

Banana, consumption, EEC countries, . . 57
delayed ripening treatment, . . 134
pests and diseases of, . . 78 BR
protection against post-harvest fruit rots, . . 133,135

Banana root weevil, control, . . 78 BR

Barban, in wild oat control, . . 119

Barbera grape, . . 94

Barley, harvesting for green crop drying, . . 43 (fig.)

Bathycoelia thalassina, . . 75

Battelle Memorial Institute, wool marketing study, . . 33

Bean, growth retardant effect on, . . 86 (fig.)

Beef cattle, feeding, thrice weekly, . . 3
feedlot population, . . 141
nucleus breeding herds, New Zealand, . . 4

Benomyl, control of banana fruit rots with, . . 135

Benzene hexachloride, application methods for cocoa, . . 76

Benzonitrile herbicides, . . 70

Benzoylprop ethyl (Suffix), . . 27,119

Benzyl-3-furylmethyl chrysanthemate, . . 111,113

Berseem, inter-row planting, . . 1

Bioassay, herbicide residues in soil, . . 70

Biocides, and the environment, . . 16

Biological control, . . 2
compared with chemical form, . . 67
of cocoa pests, ants in, . . 77
of mites by natural enemies, . . 19

Biome modelling, . . 15

Biosystematics, aid to insect identification, . . 107

Biphenyl control of citrus spoilage, . . 134

Bird migration, quelea, . . 134

Black currants, . . 58
weed control in, . . 68,70

Black garbage fly, dieldrin-resistant, . . 20

Black pod of cocoa, . . 30,31 (fig.)

Blister canker of pear, . . 58

Book reviews
Desert Locust, The, by Baron, . . 44
Fertilizing for maximum yield, by Cooke, . . 143
Great wine blight, The, by Ordish, . . 143
Pest control in bananas, ed. by Feakin, . . 78
Pesticides in the modern world (Symposium), . . 143
Termites their recognition and control, (2nd ed.) by Harris, . . 44
Termites a world problem, by Hickin, . . 44

Botswana, farm mechanisation project, . . 105

Bovine ketosis, control by steroid administration, . . 107

Brevicoryne brassicae, . . 72,73

Bromacil, residual, . . 71

Brussels sprouts, risk rating for aphid attack, . . 73

Burning scrub land, Kenya, . . 23 (fig.),24

Bush control in rangeland, . . 23 (fig.)

Bush species, fodder value, . . 24,25

c

Cabbage, consumption, . . 58
varietal resistance to aphid attack, . . 72

Cabbage aphid, attack, risk rating, . . 73
integral control, . . 72

Cabbage root fly, . . 67

Calf breeding, from 6-week old stock, . . 4

Cameroun, cocoa production, . . 74

Canada, agricultural outlook, . . 32
research in biosystematics, . . 107
wild oat problem, . . 27

Canning, heat saved by pre-radiation, . . 121
peas for, . . 88
pears for, . . 55

Capsicum, green, . . 57

Captan, synergism with auxin, . . 82

Carbaryl, . . 75
case of misuse of, . . 77

Carbofuran, in rice pest control, . . 7

Carbomoyl oximes, nematicides, . . 116

Carbon dioxide, in glasshouse air enrichment, . . 90

Carotenoids, relation to abscisic acid, . . 86

Carpet wool, . . 2,33

Carrot, harvesting, in the tropics, . . 134

Cascaval cheese, . . 140

Catching appliances for fruit crops, . . 61

Cattle, feeding, dried grass for, . . 42
manure production from, . . 141
population and improvement, Hungary, . . 139
rarer breeds, Hungarian Grey, . . 139 (figs.)

Cauliflowers, consumption, EEC, . . 58

Ceratitis capitata, . . 112

Cereals, breeding dwarf varieties, . . 123
high-yielding, native species and, . . 16
infestation with couch, . . 118
with wild oat, . . 26 (fig.), 119
market for, U.S.S.R., . . 1
North American trade in, . . 1,32

Chaetanaphothrips signipennis, . . 78 BR

Charcoal from rangeland bush, . . 25

Cheese making, Hungary, . . 140

Chemical analysis, in risk rating of plant resistance to pests, . . 73,74

Chemosterilants, . . 121

Cherelle wilt of cocoa, . . 75

Cherry, consumption, EEC, . . 57
necrotic ringspot-free grafts, . . 59
virus diseases of, . . 58

Cherry ring mottle, . . 59

2-Chloroethyl phosphonic acid, . . 87,124

Chicken manure, . . 141

Chlorfenprop-methyl, . . 119

Chlormequat, dwarfing with, . . 85

Chloropicrin, nematicidal, . . 115

Chlorotic leaf spot in plums, . . 59

Chlorthiamid, residue levels in soil, . . 70

Chrysanthemum, daylength control for, . . 84
risk rating for aphid attack, . . 72 (fig.)

Citrus, red mite resistance, DDT and, . . 72

Citrus fruit, chemical wraps for, . . 134
consumption, EEC countries, . . 57

Citrus nematode, control by soil fumigation, . . 66 (fig.),67

Clay particles, bonding in soil, . . 35

Climatology, research in orchards, . . 63

Cnephasia virgaureana, . . 89

Cocoa, economics of pest control, . . 74
seedling protection by insecticides, . . 76

Cocoa bean, black pod disease, . . 30,31 (fig.), 75
irradiated, to control spoilage, . . 122

Cocoa capsids, losses due to, Ghana, . . 75
spray, effect on swollen shoot, . . 76
spraying, timing experiment, . . 76

Codling moth, genetic control, . . 112

Coffee beans, import into Japan, . . 110

Colaspis hypochlora, . . 78 BR

Colchicine, . . 1,124

Combine harvesters, Japanese
design, . . 108 (fig.)
production, France, . . 37

Compton metabolic profile test, . . 107

Computer programmes for agricultural transport systems, . . 11

Conservation of natural resources, . . 17

Consumer preferences, horticultural produce, . . 56

Continuous cropping, soil structure and, . . 34

Co-operatives, apple packers, . . 56
farming, France, . . 129
Japan, . . 109
Spain, . . 129
wine-making, Italy, . . 93

Copper fungicides, alternatives for vines, . . 93
in control of cocoa black pod, . . 31

Cosmopolites sordidus, . . 78 BR

Cost-benefit, disease control in livestock, . . 3

Costs, farm transport, simulation study, . . 13
intensive fruit growing, . . 60
pest control, need to quantify losses, . . 66
spraying cocoa against capsids, Ghana, . . 74
vegetable transport, developing countries, . . 80
vineyard planting, India, . . 96

Cotton Research Corporation, . . 18

Cotton Research Station, Namulonge, Uganda, . . 18

Cotton white fly, stimulation by DDT, . . 72,74

Couch, infestation of cereals, . . 118
rhizome, . . 118 (fig.)

Cowpea, inter-cropping with, India, . . 1

Crematogaster spp., . . 77

Crop drying, . . 106
development, Denmark, . . 42 (figs.)
expansion, Asian countries, . . 106
fuel oil market and, . . 42

Crop losses, . . 121
assessment, FAO programme, . . 67,121
from pests and diseases of cocoa, . . 30,74,75
from sugar beet cyst-nematode, . . 115
from wild oat, . . 27
'hidden', examples of, . . 67
need to quantify, . . 66
post-harvest, of tropical crops, . . 133,134

Crop protection,
comparative cost of methods, . . 1
equipment, production, France, . . 37

Crops, high-yielding varieties, India, . . 41

Cucumber pest, integral control, . . 67

Curing, post-harvest, of vegetable crops, . . 134

Cutting machine, for lettuce, . . 91

Cuttings, mist propagation, . . 82,83
rooting in heated bins, . . 82

Cutworm, identification marker for, . . 107

Cytokinins, effect on cell division, . . 85

d

2,4-D, . . 85
use on rangeland, . . 24, 25

3-D man positioners, . . 61

Dairy products, consumption, Japan, . . 110

Dalapon, . . 118

Daylength, dormancy control and, . . 81

Dazomet, . . 115, 116

D-D, control of cyst-nematodes with, . . 115

DDT, effects on sea birds, . . 18
pest resistance of citrus and, . . 72
poisoning, and hormone release in insects, . . 113

Deciduous plants, dormancy of cuttings, . . 81

Denmark, apple consumption, . . 57
Shell Farm, Tjele, Jutland, . . 42,43 (fig.)

Desert locust, . . 44 BR

Diaphania nitidalis, . . 72

Dichapetalum cymosum, toxicity to stock, . . 24

Dichlobenil, residual, . . 70

2,4-Dichlorobenzamide, determination in soil, . . 70

2,4-Dichlorophenoxyacetic acid, . . 85

Dieback of cocoa, . . 75
caused by fungal attack, . . 76

Dieldrin, . . 75
misuse of, . . 77

N-N-Dimethylaminosuccinamic acid, . . 85

Dipping bananas to control post-harvest rots, . . 133 (fig.)

Dips, post-harvest, compounds reviewed, . . 134

Distantiella theobroma, . . 75

Diuresis, insect, insecticide-induced, . . 112,113

Dormancy, break in apple buds, . . 63,65
prevention in cuttings, . . 81
wild oat seed, . . 119

Dri-Crops, . . 73, 106

Dried grass, . . 42
digestibility and feeding value, . . 107

Dryer, Swiss Combi, . . 42, 43 (fig.)

Dryland farming research, Botswana, . . 105

Drysdale sheep breed, . . 2

Du Pont 1410, . . 116

Dwarf wheats, breeding, . . 123
research project, India, . . 39,40

Dwarfing, growth retardants for, . . 85

e

Earias biplaga, . . 75

East Kent Packers, . . 56

Egg protein, band separation technique, as aid to insect taxonomy, . . 107

Eggs, consumption, Japan, . . 110

Elephant grass, drying potential, Malaysia, . . 106

Embryo culture, plant, . . 124

EMLA clones, . . 58
stock certification scheme, . . 59

Environment, agricultural development and, . . 15
calamitous prophesies analysed, . . 17

Environment Protection Agency, U.S.A., . . 142

Ether as plant growth regulator, . . 84

Ethrel, . . 87
gametocidal activity of, . . 124

Ethylene, physiological effects on plants, . . 86
removal of endogenously produced, . . 134

Eucalyptus spp., control with picloram, . . 25

European Agricultural Studies Centre, Wye, . . 107

European Economic Community,
farm machinery, . . 105
fruit consumption in, . . 57
fruit marketing in, . . 53,54
North American trade with, . . 32
wine imports of member countries, . . 93
wine regulations, . . 92

Euxoa spp., . . 107

Ewe, milk production from, Hungary, . . 140

f

Farm Buildings Centre, U.K., . . 132
